

All spills should be treated promptly for best results and ease of removal. Most spills can be cleaned by gently lifting the spill with a paper towel, or a clean, dry, absorbent cloth.

CLEANING GUIDELINES

The use of a paper towel, or clean, dry, absorbent cloth alone may not completely remove the spill. For further treatment, these guidelines are suggested for best results.

STAINS, WINE,
COFFEE, MILK,
BLOOD, SODA,
BEER, URINE, TEA,
JUICES, KOOL AID

LIQUID SPILLS- Use a water based soap mixture that combines 1 tablespoon of a liquid detergent such as Tide with 16 ounces of lukewarm water. Dampen the cleaning cloth in the mixture and gently blot the soiled area. Avoid rubbing the affected area aggressively. Rinse the area with a clean, damp cloth to ensure that all of the soap residue has been removed.

KETCHUP, SALSA,
CHOCOLATE SYRUP/
CHOCOLATE,
ICE CREAM, JELLY,
CRAYOLA MAGIC
MARKER, DIRT/MUD

NON-LIQUID SPILLS- The removal of dried non-liquid spills may require the use of a soft brush or butter knife on the affected area before following with any wet treatment. After removal of the dried contaminants, repeat the process of cleaning with the water based soap mixture described in the liquid spills guideline above.
